BACKGROUND
A novel (new) coronavirus named “COVID-19” was first detected in China in December 2019, and on January 21, 2020, the Centers for Disease Control and Prevention (CDC) confirmed reports from Washington state of the first U.S. resident with a COVID-19 infection. By January 30, 2020, the World Health Organization declared the COVID-19 outbreak a Public Health Emergency of International Concern.

On March 4, 2020, Governor Gavin Newsom declared a state of emergency in California due to the number of confirmed cases of COVID-19 in the State, and on March 10, 2020, the Contra Costa County (“County”) Board of Supervisors declared the existence of a local emergency in the County caused by the introduction of COVID-19 and, among other things, its contribution to the shortage of essential health care supplies.

On March 11, 2020, the World Health Organization made the assessment that COVID-19 can be characterized as a pandemic. Also on March 11, 2020, the Governor announced that California public health officials have determined that gatherings of more than 250 people should be postponed or canceled across the state until at least the end of March and, among other things, that certain provisions of the State Government Code pertaining to teleconferenced local government meetings were suspended.

On March 13, 2020, the President of the United States declared that the outbreak of COVID-19 constituted a national emergency.
On March 14, 2020, the County Health Officer issued Order No. HO-COVID19-01, prohibiting an event or convening that brought together 100 or more individuals at the same time in a single room or single indoor or outdoor confined or enclosed space.

On March 15, 2020, the CDC issued guidance recommending that for the next eight weeks, organizers cancel or postpone in-person events that consist of 50 people or more throughout the United States.

On March 16, 2020, the County Health Officer issued an order directing individuals living in the County to shelter at their place of residence unless they are required to engage in certain essential activities, work for essential businesses, or provide essential governmental services. The March 16, 2020 Order also directs all businesses and governmental agencies to cease non-essential operations at physical operations in the County; prohibits all non-essential gatherings of any number of individuals; and orders cessation of all non-essential travel.

Section 2.16.060(A)(1) of the Brentwood Municipal Code empowers the City Manager, as the Director of Emergency Services, to proclaim a local emergency when the City is affected or likely to be affected by a public emergency and the City Council is not in session.

Taking into account the above facts, the City Manager, acting in his role of Director of Emergency Services, found that the efforts required to prepare for, respond to, mitigate, and recover from the increasing spread of COVID-19 have imposed, and would continue to impose, extraordinary requirements and expenses on the City, requiring diversion of resources from day-to-day operations. In addition, he found that the conditions associated with the impacts of the COVID-19 outbreak were, or were likely to be, beyond the control of the services, personnel, equipment, and facilities of the City.

As the City Council was not in session and could not immediately be called into session, on March 16, 2020, the City Manager determined that it was in the best interests of the City to proclaim the existence of a local emergency.

Among other things, the proclamation allows activation of the City’s Emergency Operations Plan, as well as the emergency purchasing provisions pursuant to the City’s Purchasing Policy. It provides the authority to provide and request mutual aid from other governmental agencies consistent with local ordinances, resolutions, emergency plans, and agreements. It allows for the promulgation of orders and regulations necessary to provide for the protection of life and property. It activates the use of disaster service workers and is a prerequisite for requesting state or federal assistance and cost reimbursements.

Pursuant to State and local law, for the proclamation to remain in effect, the City Council must ratify it within seven calendar days of issuance. The attached resolution ratifies and confirms the proclamation, and directs the City Manager to report every sixty days on the conditions pertaining to the emergency. A copy of the proclamation is included as a part of the attached resolution.

**Fiscal Impact**
The future costs of responding to COVID-19 are unknown at this time due to evolving conditions. With the President declaring a National Emergency and the Governor declaring a State Health Emergency, local COVID-19 response efforts may be eligible for state or federal reimbursement, although the details of potential reimbursement are unknown at this point.
All new City expenditures associated with the COVID-19 response will be recorded and tracked. Staff will return to the Council to appropriate any required funding once a clear picture is established of the potential response costs.

OF ANY NUMBER OF INDIVIDUALS; AND ORDERING CESSATION OF
ALL NON-ESSENTIAL TRAVEL

DATE OF ORDER: MARCH 16, 2020

Please read this Order carefully. Violation of or failure to comply with this Order is a
misdemeanor punishable by fine, imprisonment, or both. (California Health and Safety
Code § 120295, et seq.)

UNDER THE AUTHORITY OF CALIFORNIA HEALTH AND SAFETY CODE SECTIONS
101040, AND 120175, THE HEALTH OFFICER OF THE COUNTY OF CONTRA COSTA
(“HEALTH OFFICER”) ORDERS:

1. The intent of this Order is to ensure that the maximum number of people self-isolate in
their places of residence to the maximum extent feasible, while enabling essential
services to continue, to slow the spread of COVID-19 to the maximum extent
possible. When people need to leave their places of residence, whether to obtain or
perform vital services, or to otherwise facilitate authorized activities necessary for
continuity of social and commercial life, they should at all times reasonably possible
comply with Social Distancing Requirements as defined in Section 10 below. All
provisions of this Order should be interpreted to effectuate this intent. Failure to comply
with any of the provisions of this Order constitutes an imminent threat to public health.

2. All individuals currently living within Contra Costa County (the “County”) are ordered to
shelter at their place of residence. To the extent individuals are using shared or outdoor
spaces, they must at all times as reasonably possible maintain social distancing of at least
six feet from any other person when they are outside their residence. All persons may
leave their residences only for Essential Activities, Essential Governmental Functions, or to operate Essential Businesses, all as defined in Section 10. Individuals experiencing homelessness are exempt from this Section, but are strongly urged to obtain shelter, and governmental and other entities are strongly urged to make such shelter available as soon as possible and to the maximum extent practicable (and to utilize Social Distancing Requirements in their operation).

3. All businesses with a facility in the County, except Essential Businesses as defined below in Section 10, are required to cease all activities at facilities located within the County except Minimum Basic Operations, as defined in Section 10. For clarity, businesses may also continue operations consisting exclusively of employees or contractors performing activities at their own residences (i.e., working from home). All Essential Businesses are strongly encouraged to remain open. To the greatest extent feasible, Essential Businesses shall comply with Social Distancing Requirements as defined in Section 10 below, including, but not limited to, when any customers are standing in line.

4. All public and private gatherings of any number of people occurring outside a household or living unit are prohibited, except for the limited purposes as expressly permitted in Section 10. Nothing in this Order prohibits the gathering of members of a household or living unit.

5. All travel, including, but not limited to, travel on foot, bicycle, scooter, motorcycle, automobile, or public transit, except Essential Travel and Essential Activities as defined below in Section 10, is prohibited. People must use public transit only for purposes of performing Essential Activities or to travel to and from work to operate Essential Businesses or maintain Essential Governmental Functions. People riding on public transit must comply with Social Distancing Requirements as defined in Section 10 below, to the greatest extent feasible. This Order allows travel into or out of the County to perform Essential Activities, operate Essential Businesses, or maintain Essential Governmental Functions.

6. This Order is issued based on evidence of increasing occurrence of COVID-19 within the County and throughout the Bay Area, scientific evidence and best practices regarding the most effective approaches to slow the transmission of communicable diseases generally and COVID-19 specifically, and evidence that the age, condition, and health of a significant portion of the population of the County places it at risk for serious health complications, including death, from COVID-19. Due to the outbreak of the COVID-19 virus in the general public, which is now a pandemic according to the World Health Organization, there is a public health emergency throughout the County. Making the problem worse, some individuals who contract the COVID-19 virus have no symptoms or have mild symptoms, which means they may not be aware they carry the virus.
Because even people without symptoms can transmit the disease, and because evidence shows the disease is easily spread, gatherings can result in preventable transmission of the virus. The scientific evidence shows that at this stage of the emergency, it is essential to slow virus transmission as much as possible to protect the most vulnerable and to prevent the health care system from being overwhelmed. One proven way to slow the transmission is to limit interactions among people to the greatest extent practicable. By reducing the spread of the COVID-19 virus, this Order helps preserve critical and limited healthcare capacity in the County.

7. This Order also is issued in light of the existence of 29 cases of COVID-19 in the County, as well as at least 258 confirmed cases and at least three deaths in the seven Bay Area jurisdictions jointly issuing this Order, as of 5 p.m. on March 15, 2020, including a significant and increasing number of suspected cases of community transmission and likely further significant increases in transmission. Widespread testing for COVID-19 is not yet available but is expected to increase in the coming days. This Order is necessary to slow the rate of spread and the Health Officer will re-evaluate it as further data becomes available.

8. This Order is issued in accordance with, and incorporates by reference, the March 4, 2020 Proclamation of a State of Emergency issued by Governor Gavin Newsom. This Order is issued in accordance with, and incorporates by reference, the March 4, 2020 Proclamation of a State of Emergency issued by Governor Gavin Newsom and the March 10, 2020 Resolution of the Contra Costa County Board of Supervisors declaring the existence of a Local Emergency in Contra Costa County.

9. This Order comes after the release of substantial guidance from the County Health Officer, the Centers for Disease Control and Prevention, the California Department of Public Health, and other public health officials throughout the United States and around the world, including a variety of prior orders to combat the spread and harms of COVID-19. The Health Officer will continue to assess the quickly evolving situation and may modify or extend this Order, or issue additional Orders, related to COVID-19.

10. Definitions and Exemptions.
